### **When is the best time to do Maternity Sessions or Newborn Sessions?**

Maternity sessions can be done from 4 months-10 months. Because all women carry differently with each pregnancy it is hard to pinpoint an exact time for each mom. I always suggest to do them when you are nice and round but not swollen lol. Usually around 6-7months is ideal for most women.

Newborn Sessions are best done when baby is 2-14 days old. Anything later than this becomes more difficult to pose the newborn into the popular newborn poses.

### **Do you provide clothing?**

I do have various Maternity Gowns available for use. I charge a \$15 cleaning fee for each gown worn.

### **Do you have crowns?**

I keep a variety of crowns for both women, men, and children in gold and silver options. There is no cost to use any of these.

### **What if I want balloons, cake, and etc?**

If your session does not include any of those options you can either include them as an add on option or you can also bring your own. If it's something specific please notify me prior to your session so I can do my best to provide those for you.

### **What color backdrops do you have?**

I have a large variety of pretty much every color possible. If you have a specific color or backdrop request please feel free to contact me.

### **What if I want more edited photos than what's included in my session?**

I offer additional edits for additional prices.

1 edit = \$5.00 , 10 edits =\$40.00

### **Do you provide props?**

If it's a prop I already own and have in any of my storages, YES!!! If it is a specific prop I do not already own, it can either be purchased as an add-on or provided by you.

## **TIPS & IMPORTANT DETAILS FOR YOUR UPCOMING SESSION**

**GIVE YOURSELF PLENTY OF TIME TO ARRIVE TO THE DESIGNATED LOCATION ! ACCOUNT FOR TRAFFIC, TANTRUMS, PITSTOPS, AND ANY OTHER MISHAPS THAT MAY COME ALONG.**

Have all outfit changes, extra shoes, jewelry, props, and anything else you need for the session packed up and ready in your car at least by the night before the session. This way you do not forget anything on the day of due to you rushing and losing your mind LOL !

**Make sure that children (& husbands lol) have been fed, napped, and not filled up with tons of sugar. Also make sure they have used the restroom prior to any outdoor sessions.**

Don't put on small children or babies' clothes until you arrive to the location. If doing this give yourself extra time so that you are able to have them dressed and ready at the time of your session. Don't take time from your session to dress children. This helps with juice spills, spit ups, or Cheeto stains that may happen during the ride.

**TRY ON ALL CLOTHING AND SHOES BEFORE THE SESSION !**

If you shave body hair remember to shave before your session ! Legs, armpits, and etc.

**Remember finger nails and toe nails do get photographed, so if you'd like them clean &/or painted don't forget LOL.**

**If you have any appointments before the session (makeup, hair, etc) please make sure they are NOT booked back-to-back. Some makeup artists or hair stylists may be running behind with their schedule, so be sure you have enough time booked in between so that you are not late for your photo session.**

**Discuss any changes or details with me PRIOR to your session date. I want to be sure everything runs smoothly and I am able to provide you with everything you desire for your session to be PERFECT !**

**Have helium balloons filled up on the day of your session.**

**If you are wanting anything Photoshopped please inform me before your session. Example "Memorial Photos" , "Winged Photos" , and etc.**

**If it's a baby session try not to bring along so many extra people. You want the baby to feel as comfortable as possible and sometimes having too many eyes watching doesn't help.**
